

To Whom It May Concern

1st September 2022

I would like to thank Bahwan Engineering Company LLC(BEC) for the good job they have been doing all these years at Embassy of India, Muscat.

I am writing to specially appreciate Mr. Asif and Mr. Raju as an excellent, sincere & hardworking workers. I have worked with them extensively over the past year, and I can say without a doubt that they are exceptionally talented and hardworking workers. They are very professional and their technical skills are as of very high order.

We have found them competent in their field, very forthcoming for any job assigned to them and responsible for proper & effective execution of the the work assigned to them from time to time. Their approach towards work is very positive & cooperative, we consider all their services to be very competent in its own right. Their contribution towards successful organization of National Events organized in the Embassy is remarkable. We wish them very bright & successful future ahead.

(Praveen Kumar)
Second Secretary (E&C/HOC)
